Connect more to relevant people using technology.

Our technology analyzes member profiles and generates a matching score designed to show how relevant another member may be to you. Instead of scrolling through hundreds of profiles, discover the people you may actually have a reason to meet.

Activate “Private Mode” and your profile will not appear within member matching.

The Founder

Baurjan Tulegenov is a Belgian entrepreneur living in Dubai, with more than a decade of experience in sales, business development and building international networks. Throughout his career, he has built an extensive network across Europe, the Middle East and beyond.

For the past five years, Baurjan has worked closely with high-net-worth individuals, entrepreneurs and investors around the world, advising them, connecting them with the right people and gaining a firsthand understanding of the challenges that come with success, wealth and international business. It was through these relationships that the idea for Ledger Society emerged.
